

EUR 13.8 million WPIP / MIP V investment measures in Elbasan

KFW

Co-funded by the European Union

Federal Department of Economic Affairs FOEA
State Secretariat for Economic Affairs SECO

UKR Elbasan

Drinking water network rehabilitation and extension

- Over 43.8 km of mains pipes were replaced and about 2,600 new house connections are now installed
- About 7,300 new individual water meters have been installed in Elbasan

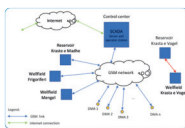

New drinking water reservoir and full rehabilitation of existing reservoirs

- The old main reservoir of Krasta e Madhe was demolished and a completely new main reservoir in Krasta e Madhe of 2000 m³ has been constructed
- All other existing reservoirs of Krasta e Madhe and Krasta e Vogel have been fully rehabilitated and modernised and are monitored and controlled now with the help of the new SCADA system

Computerised monitoring for controlling the water network and reduce water loss

- The implementation of a new computer system allows to monitor in real time all relevant elements of the drinking water system of Fier: reservoirs, well fields and water distribution networks.

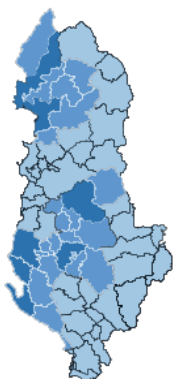

Protecting the well fields

- Construction of a 3.4 km wastewater network to protect the well fields Krasta e Vogel, Mengel and Frigoriferi

Key impact: clean and safe drinking water 24/7 for the citizens of Elbasan

Overall WPIP MIP V - EUR 145.7 million investment measures for 6 regional water supply and sewerage companies
