WPIP / MIP V investment measures

- **Fier water network** - supply and installation of ca. **45km of pipes** and nearly **2300 consumer connections**
- **Karafaj Well Field** - Construction of **new pumping station** for all wells and rehabilitation of intermediate reservoirs.
- **Kafaraj Well Field** - **Rehabilitation of 4 wells**, drilling and construction of **3 to 4 new wells**
- Major upgrade and improvement of **SCADA system** for monitoring and controlling wells and reservoirs as well as the network (reducing water loss and increasing revenues).
- Rehabilitation of 8.7 km wastewater network
- Construction of new sewer pumping station.

Key impact: highly improved water network and control system
